*This publication will be worth purchasing. It really is written in simple terms instead of difficult to understand. It's been designed in an exceptionally simple way and is particularly only right after I finished reading this ebook in which basically modified me, alter the way I believe.*

Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.I wrote this book to first show how a learning disability, such as dyslexia, can effect creative thinking. Since Einstein displayed a learning disability in his early years, many modern educators believe he had dyslexia. Secondly, I wrote this book to show how I, as a diagnosed dyslexic, have similar thought processes as Einstein, even if it is at a different level. Thirdly, I try to show how I use modern theories (i.e. quantum theory and M theory) to explain current mysteries of theoretical physics. I do not or cannot use higher math for these findings. I simply rely on end results of theoretical physics for my base. Einstein said he was a poor mathematician, but compared to him I fall way short! The conclusions that I draw from current theories leads me to postulate and theorize about: dark matter, dark energy, super-symmetry, the eleven dimensions of space-time, the unification of forces, the spin of particles, electron orbital s, eternity, the theory of everything (TOE), beginning and end of the universe, plus I introduce a new particle, --- The Space-Time-Energy-Particle (STEP). I postulate that quantum theory (and as Einstein believed) is incomplete and what can happen-will happen is only true if STEPs entangled with quantum theory allow these happenings to take place. This is THE NEW REALITY. I in no way think that I could tie Einstein s shoe laces. My thoughts are based on his view of quantum theory etc. Everything that I have postulated in this book may not bear fruit, but just maybe the underlying concepts will. A paradigm shift away from atheistic theoretical physics concepts to a more deity-agnostic or spiritual approach is needed....
