The Early Medicine, from the Body to the Stars

By D' Andiran, Gérald:

Schwabe Basel, 11.2010., 2010. gebunden. Book Condition: Neu. 1., Aufl.. 592 S. A unique publication and exhibition on the history of medicine. In the autumn of 2010, the Martin Bodmer Foundation (Geneva) organizes a unique exhibition on the history of medicine. From Antiquity to the 17th century, 250 items chronicle major developments from a historical and scientific perspective. Step by step, the exhibition follows the path of knowledge as it was formed by a large variety of contacts and influences. The organization of the exhibition is entrusted to Dr. Gérald d'Andiran, Curator and Editor, and to Professor Charles Méla, Director of the Foundation, with the support of Professors Vincent Barras and Bernardino Fantini. From medicine as it was practised in Ancient Egypt, the exhibition illustrates the Greek origins of the medical art and how knowledge was transmitted through Nestorians, Jews and Arabs. Manuscripts dating from the 8th and 9th centuries suggest an autonomous monastic medical tradition. The medieval herbals and the treatises on Theriaca confirm the close attachment to nature. The hand, exalted in a philosophical text by Galen, becomes a symbol of harmony and knowledge. In the Middle Ages, antique concepts and the erudition of learned men let Hippocrates coexist with...
