

Language and Society in Japan

By Nanette Gottlieb

Cambridge University Press, Cambridge, UK, 2005. Paperback. Book Condition: New. First Edition. Language and Society in Japan deals with issues important to an understanding of language in Japan today, among them multilingualism, language and nationalism, and literacy and reading habits. It is organised around the theme of language and identity, in particular how language is used to construct national, international and personal identities. Contrary to popular stereotypes, Japanese is far from the only language used in Japan, and does not function in a vacuum, but comes with its own particular cultural implications. Language has played an important role in Japan's cultural and foreign policies, and language issues are intimately connected both with technological advance and with minority group experiences. Nanette Gottlieb is a leading authority in this field. Her book builds on and develops her previous work, and promises to be essential reading for students, scholars, and all those wishing to understand the role played by language in Japanese society. A broad-ranging and accessible introduction to the Japanese language, how it has developed and how it functions within Japanese society. Author is one of the few experts in this field, and the book builds on previous research. A must-read for...

Reviews

Extensive information for book fans. It is written in basic words and never hard to understand. It is extremely difficult to leave it before concluding, once you begin to read the book.

-- **Otis Wisoky**

This publication is great. It is full of wisdom and knowledge. You will not really feel monotony at any time of the time (that's what catalogs are for relating to when you ask me).
