

## Congressional serial set Volume 4447

Filesize: 6.52 MB

### ***Reviews***

*Merely no terms to spell out. We have read through and i also am confident that i will gonna read yet again again in the future. You will not sense monotony at anytime of your own time (that's what catalogs are for about should you question me).*  
*(Pasquale Larkin I)*

## CONGRESSIONAL SERIAL SET VOLUME 4447

RareBooksClub. Paperback. Book Condition: New. This item is printed on demand. Paperback. 274 pages. Dimensions: 9.7in. x 7.4in. x 0.6in. This historic book may have numerous typos and missing text. Purchasers can download a free scanned copy of the original book (without typos) from the publisher. Not indexed. Not illustrated. 1902 Excerpt: . . . equal to 180 plus the spherical excess and to keep the computed lengths of the base lines from any adjoining base the same as the measured lengths. The discrepancies in latitude, longitude, and azimuth were very small over this stretch of about 900 miles along the line of triangulation, amounting to 0. 16 in latitude, 0. 44 in longitude, and 5. 75 in in azimuth. The changes introduced by the adjustment were equivalent to a change of about the 1100000 part in the lengths of the lines. The average change in the angles was less than 0. 10. The greatest change in any angle was 0. 30. The probable error of an angle over this stretch as given in Professional Papers No. 24 is about 0. 30. No violence, therefore, was done to the work in fitting it to the United States standard positions. The old position computation, the results of which are given in Professional Papers No. 24, was used in deriving the discrepancies in latitude, longitude, and azimuth for the condition equations after making a suitable allowance for what the result would have been if the new and later value for the length of the standard bar R. 1876 had been used instead of the provisional value which had to be used for the results as given in No. 24. There were 97 triangles in the chain adjusted between Clyde-Sodus and Hunt City-Belle Air. The complex nets of triangles around the Buffalo, Sandusky, and...
