Brand New Book \*\*\*\*\* Print on Demand \*\*\*\*\*.Excerpt from Arithmetic Determining the Achievement of Pupils in the Addition of Fractions: Bulletin No; VII. Of the Department of Educational Investigation and Measurement; March, 1916 During the past few years educational measurement has been applied to arithmetic more than to any other subject, largely because of the ease with which papers can be scored. This application of educational measurement has been largely limited to work with integers. In Boston, the Courtis Standard Tests, Series A or B, have been given since 1912. Until December, 1915, no other phases of arithmetic work were subjected to scientific measurement. Inasmuch as a system for giving the Courtis tests has been worked out, and also because definite improvement in the use of whole numbers is being secured, the time seemed appropriate for extending educational measurement to other phases of arithmetic. As a result, a group of teachers and masters was selected in December, 1914, to constitute a Committee on Standards in Arithmetic, for the purpose of making a study of the problems involved in the addition, subtraction, multiplication and division of fractions. About the Publisher Forgotten Books publishes hundreds of thousands of rare and classic books. Find more at This book is a reproduction of an important historical work. Forgotten Books uses state-of-the-art technology to digitally reconstruct the work, preserving the original format whilst repairing imperfections present in the aged copy. In rare cases, an imperfection in the original, such as a blemish or missing page, may be replicated in our edition. We do, however, repair the vast majority of imperfections successfully; any imperfections that remain are intentionally left to preserve the state of such historical works.
