

Modern Wiring Practice: Design and Installation

By W. E. Steward, Tim A. Stubbs

Taylor Francis Ltd, United Kingdom, 2009. Paperback. Book Condition: New. 14th Revised edition. 228 x 152 mm. Language: English . Brand New Book. Continuously in print since 1952, Modern Wiring Practice has now been fully revised to provide an up-to-date source of reference to building services design and installation in the 21st century. This compact and practical guide addresses wiring systems design and electrical installation together in one volume, creating a comprehensive overview of the whole process for contractors and architects, as well as electricians and other installation engineers. Best practice is incorporated throughout, combining theory and practice with clear and accessible explanation, all within the framework of the Wiring Regulations. Introducing the fundamentals of design and installation with a minimum of mathematics, this book is also relevant reading for all students of electrical installation courses, such as the 2330 Certificate in Electrotechnical Technology, and NVQs from City Guilds (including 2356, 2391 and 2382 awards), as well as trainees in industry undertaking Apprenticeships and Advanced Apprenticeships. This new edition incorporates the latest thinking on sustainability and the environment and is fully up-to-date with the 17th Edition of the IEE Wiring Regulations. Illustrations have been completely updated to show current best...
